PROFESSIONAL SUMMARY

PMP-certified project manager combining hands-on business operations with financial and risk analysis skill sets. Experience managing \$150k+ in assets, coordinating concurrent initiatives, building project controls and dashboards, and translating ambiguous objectives into structured requirements, schedules, risks, metrics and deliverables. Recent UNT graduate pursuing a M.S. in Business Analytics, with working experience across Jira, GitHub, Excel, SQL, Python, Tableau and BigQuery.

CORE SKILLS

Project Planning & Coordination | Requirements Gathering | Scope, Schedule & Cost Control | Risk & Issue Management | Change Control | Stakeholder Coordination | KPI & Operational Reporting | Data Analysis & Visualization | Process Improvement | Pricing & Inventory Analysis | Data Validation & Reconciliation

TOOLS & TECHNOLOGIES

Project & Collaboration: Jira | GitHub | Git | Microsoft Teams

Analytics & Data: Excel | SQL | Python (pandas, scikit-learn) | Jupyter Notebook | Tableau | BigQuery

Business & Productivity: Word | PowerPoint | Google Workspace

Design & Web: Photoshop | Illustrator | InDesign | Dreamweaver | Astro

SELECTED PROJECTS

Professional Portfolio & Analytics Development (PPAD) - *Project Management / Portfolio Delivery*

- A multi-release professional portfolio project encompassing 283 activities and 65 approved requirements, using formal scope, schedule, risk, quality, change, decision, and release controls.

Trading Card Acquisition, Pricing & Inventory - *Operations Analytics / Excel / Python*

- Evolved an Excel-based operational system into a documented analytics workflow incorporating market pricing, inventory position, condition, acquisition cost, demand, reconciliation, and exception handling.

Residential Property Value Prediction - *Python / Predictive Analytics*

- An end-to-end **Python/Jupyter modeling workflow** covering feature engineering, transformed-variable analysis, model evaluation, and export of analysis-ready data, predictions, results, and portfolio visualizations for reproducible review.

RELEVANT WORK EXPERIENCE

Project Manager

Jan, 2021 – Present

Horizon Line Productions, LLC

Dallas, TX

- Managed concurrent asset-based mobility, hospitality and decentralized-technology initiatives across Uber, Airbnb, Turo and Bitcoin-related operations, coordinating budgets, schedules, vendors, customers, platform requirements and operating risk.
- Held full decision authority over a budget of \$140k for asset acquisition, pricing, deployment, maintenance, and exit strategies, balancing cash-flow needs with long-term ROI considerations, averaging 34% ROI per year.
- Built repeatable workflows for operating metrics, financial tracking, documentation, customer support and vendor coordination across multiple simultaneous activities.

Project Manager/Business Analyst

June, 2016 – Jan, 2021

Tapped Out Gaming, LLC

Dallas, TX

- Managed data-driven acquisition, pricing, and inventory operations supporting ~20 vendor events annually,

acquiring and selling inventory across 33,000+ active SKUs and multiple sales channels, with typical acquisition budgets of ~\$60k per event, increasing per event ROI to 30% over 3 years .

- Developed Excel-based valuation and pricing workflows combining market-price data, product identity, condition, inventory position, acquisition cost, and demand to standardize purchase offers and resale pricing decisions.
- Used inventory, pricing, and market-demand data to guide purchasing, repricing, channel selection, and disposition decisions while maintaining repeatable workflows for high-volume intake and inventory control.

Event Operations Leadership - Volunteer

May, 2017 – May, 2022

MomoCon, LLC; DragonCon, LLC

Atlanta, GA

- Progressed from Registration Assistant Director to Director of Will Call Registration, overseeing high-volume registration operations for an annual convention serving approximately 65,000 attendees.
- Led scheduling, training, and real-time coordination of 30+ volunteers during peak operations, managing attendee flow, credentialing, escalations, and registration support for attendees, VIPs, media, and vendors.

EDUCATION

University of North Texas

- **Bachelors of Applied Arts & Sciences:** Information Technologies, Data Analytics, & Graphic Design
GPA: 3.66; President's List, Dean's List, Phi Theta Kappa
- **Masters of Science:** Business Analytics (In Progress- December 2027)
